

REG CON 2014

**DIVISION OF SPENT FUEL MANAGEMENT
REGULATORY CONFERENCE**

NOVEMBER 19 – 20, 2014

ONE WHITE FLINT NORTH, THE COMMISSIONER'S HEARING ROOM, ROCKVILLE, MARYLAND

PROGRAM

DSFM REG CON 2014 Agenda

The Division of Spent Fuel Management (DSFM) Regulatory Conference (REG CON) is an annual forum to discuss NRC regulatory and technical issues involving spent fuel storage, and the transportation of radioactive material. The Conference provides an opportunity to share with interested stakeholders our regulatory perspectives and initiatives on pertinent licensing, inspection, and regulatory challenges. The forum also provides an opportunity for stakeholders to share experiences and provide insights on improving regulatory oversight in spent fuel storage and transportation. The NRC has objectives of improving openness, regulatory effectiveness, and predictability, while ensuring public health and safety in the storage of spent nuclear fuel and transportation of radioactive material. It is a goal of this conference to achieve these objectives through constructive dialogue with our stakeholders.
